

Shayan Dilmaghani

Full-stack Wordpress Developer

I have been working as a wordpress Developer for about 5 years and during this time I have learned many skills regarding the needs of customers and my own ambitions. I have worked on projects both as a freelancer and permanent office web developer as of now where customers have asked us to create landing pages, shops, industrial and company websites where different web developing technologies such as HTML / CSS / JS / PHP and demo / exclusive wordpress theme based on their needs have been used. I believe in time punctuality, high quality and devotion in my work therefore I welcome you to take a look at what I have done so far throughout these years.

Work Experience

Tehran • Jun 2017 - Jun 2019 • 2 yrs 1 mo

Web Developer
Freelancer

I have tried several courses throughout those years to learn coding plus some projects for myself and for some clients. This part of my life defined my goals to know whats best for me and what I am really good at.

Tehran • Sep 2019 - Sep 2019 • 1 yr 1 mo

Front End Developer
Offer

I entered as a react js intern for 3 months and then started to work as a junior react js developer on a web application called offer which crawled data from online shop stores and lists the ones with discounts.

Tehran • Sep 2019 - Jul 2020 • 10 mos

Marketing Team Member
Nivo

I started at Nivo mainly as marketing and content team member but throughout my work I redesigned the blog section (Archive and Single page) and ran several campaigns.

Tehran • Jul 2020 - Apr 2021 • 10 mos

Web Developer
Macan Digital Marketing Agency

Macan Agency was a really big challenge for me since I worked with several important brands like Irancell and Huawei and a few more, I designed marketing emails, wrote html/css/js and created websites in wordpress or simple one page landings. I am still working with them as a freelancer.

Tehran • Apr 2021 - current

Web Developer
Hormozan Oil Company

Hormozan was just around 5 months since they only needed 4 websites to be redesigned so after I was finished with them I left for somewhere else with more challenge but as of now I am working for them as a freelancer for them to maintain their websites.

Tehran • Aug 2021 - Apr 2022 • 9 mos

Wordpress Developer
Lavan Marketing Agency

I started working with a 5 member technical team where there was 2 full stack developer, one UI/UX designer and front-end developer. At Lavan I learned PHP and the very foundations of how to build a wordpress website all in code, I created a few both as a front-end and back-end developer.

Tehran • Apr 2022 - current

Full-stack Wordpress Developer /
Managing Director
Pandplus Advertising Agency

I started my job as CTO at Pandplus and during my hard work here I was promoted as managing director and guiding a company containing a graphic, content, SEO, website and marketing team. I established strategies to promote our brand in order to increase our sales rate yet I was involved in our technical team because I always loved to code but I acted mostly as an advisor to junior members of our team.
